

Missing Persons Information
City of Chicago
January 1, 2000 - April 30, 2021

Data are accurate as of July 20, 2021

Note¹: Provided are the RD numbers and current IUCR classifications of incidents originally classified under IUCR code 6050 (MISSING PERSON). A case originally classified as MISSING PERSON may have its IUCR code updated to reflect new information: for example, the incident's IUCR code may be updated to 6055 (NON-CRIMINAL: FOUND PERSON), 5084 (NON-CRIMINAL: DEATH), or a criminal code such as 1790 (CHILD ABDUCTION), 4220 (KIDNAPPING), or 0110 (HOMICIDE: FIRST DEGREE MURDER). More specific information on missing person recoveries would be captured in individual case report narratives.

Request: Reynolds-Tyler P663654 - I request that the Chicago Police department provide me a list of all missing person cases between Jan 1 2000 to April 30 2021 (closed and currently open). UPDATE: These records do not include whether or not the person was found or recovered deceased. This information is public and is often relayed by the Chicago Police Department via news affairs regularly. Can you provide an export of the columns that reflect that information?¹
